

COMPANY PROFILE

We're Different

Founded in 2007, Secure Source specializes in Network Security technology and compliance solutions.

A Value-Added Distributor (VAD) with focus on end-to-end security product offering right that can cater from perimeter security, core network prevention and endpoint protection

Has a team of dedicated and certified resources with varying industry experience to provide IT Security advisory practice to its business partners and customers.

Partnered with Security industry leading vendors such as Imperva, Proofpoint, BT Diamond IP, ForeScout, AlgoSec, Cubro, Corvil, Silver Peak, LogRhythm, Carbon Black, SOTI, Lastline, Hillstone and Thales

TO BECOME A LEADING I.T SECURITY PROVIDER FOR END-TO-END NETWORK SECURITY SOLUTIONS

To provide best-of-
breed Products,
Solutions and
Technologies

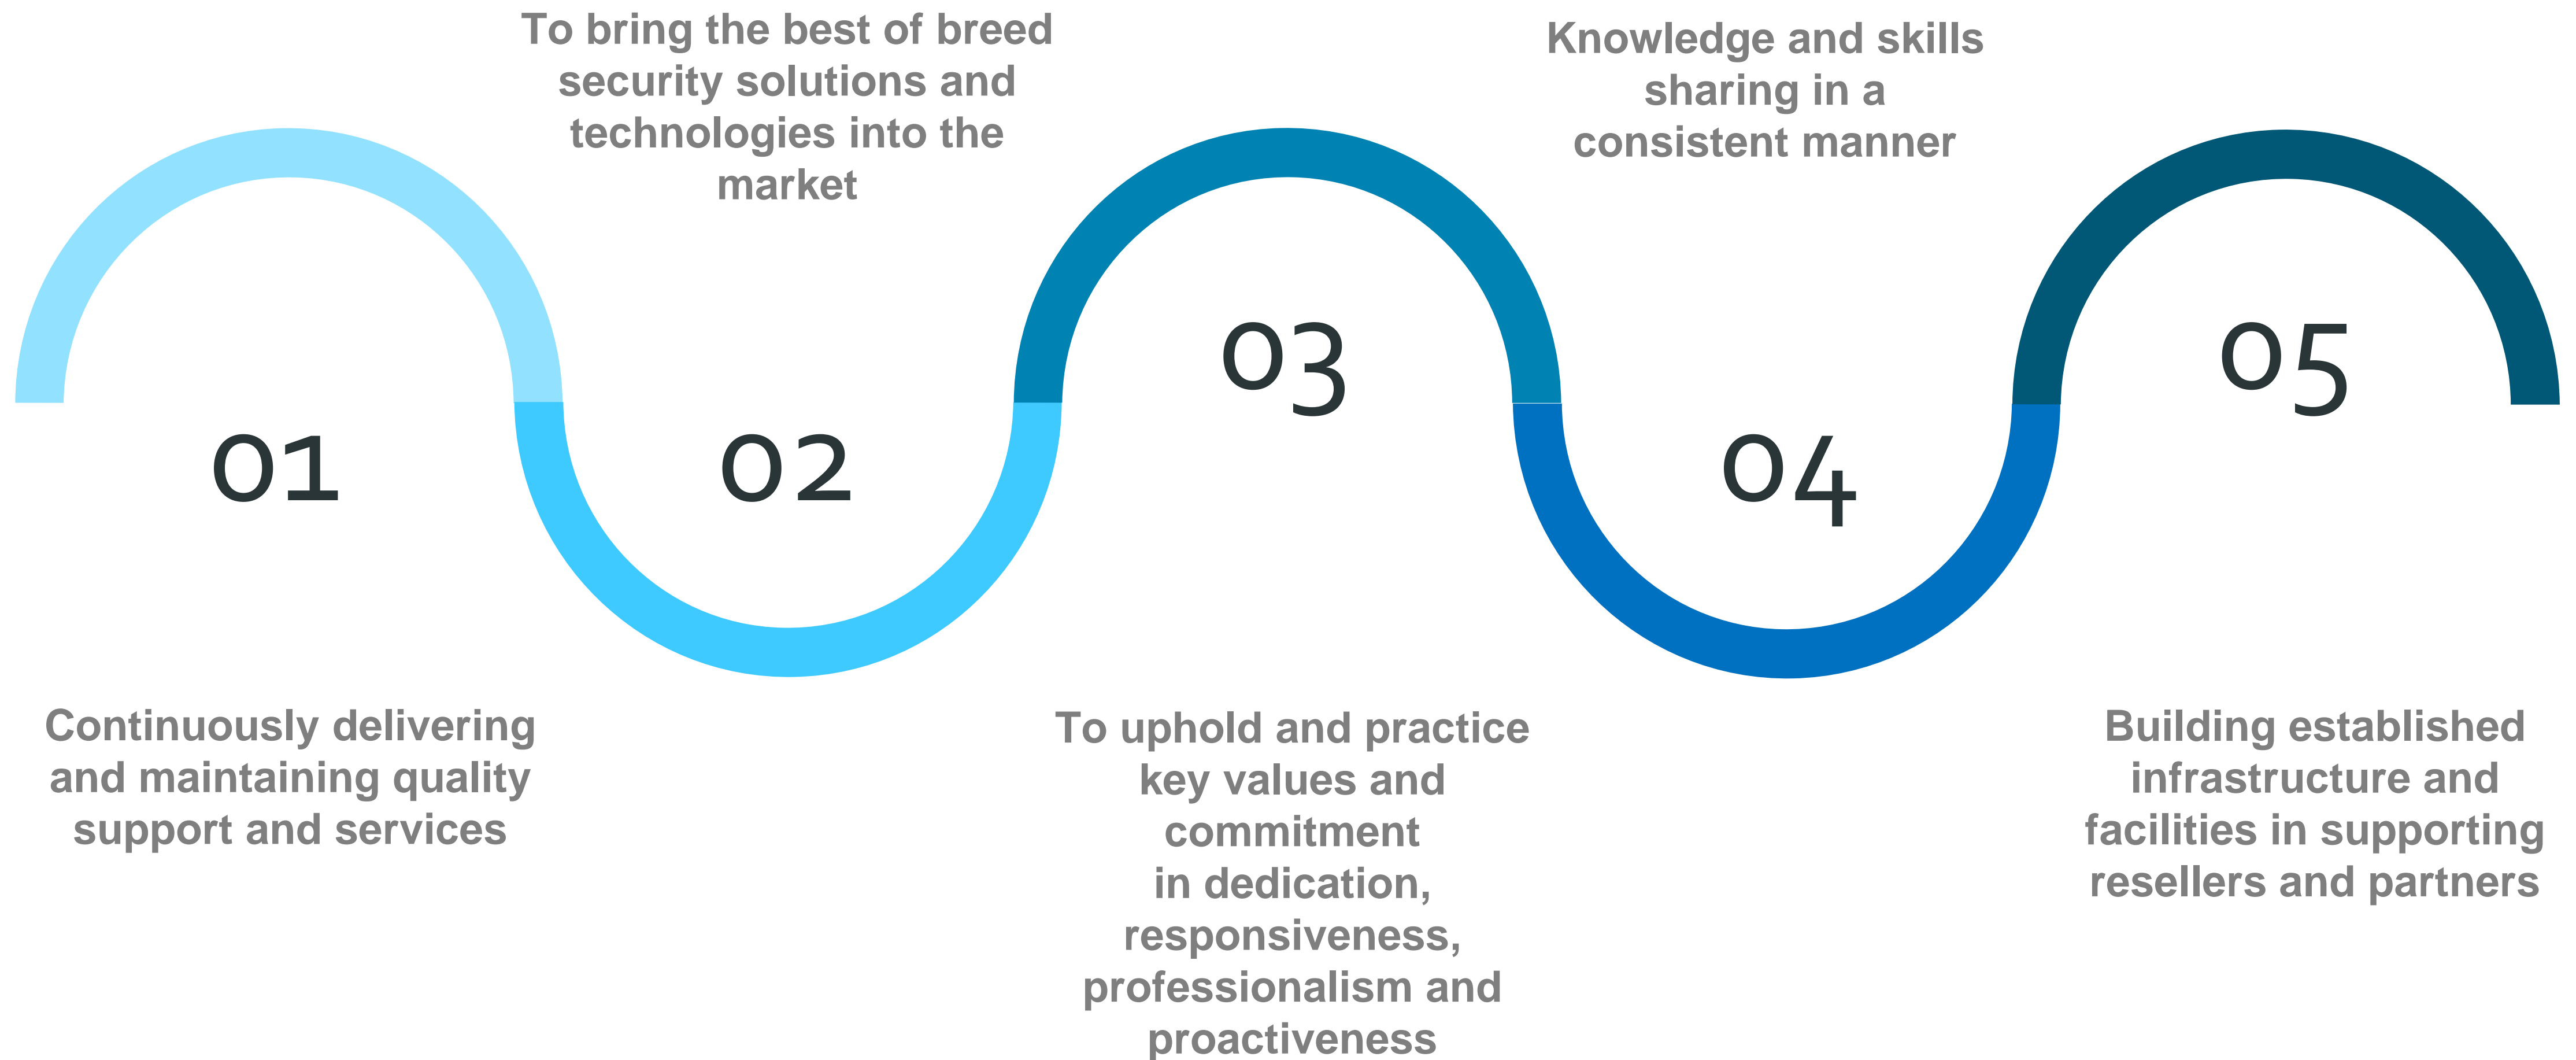

To value and
preserve our
intellectual
Properties

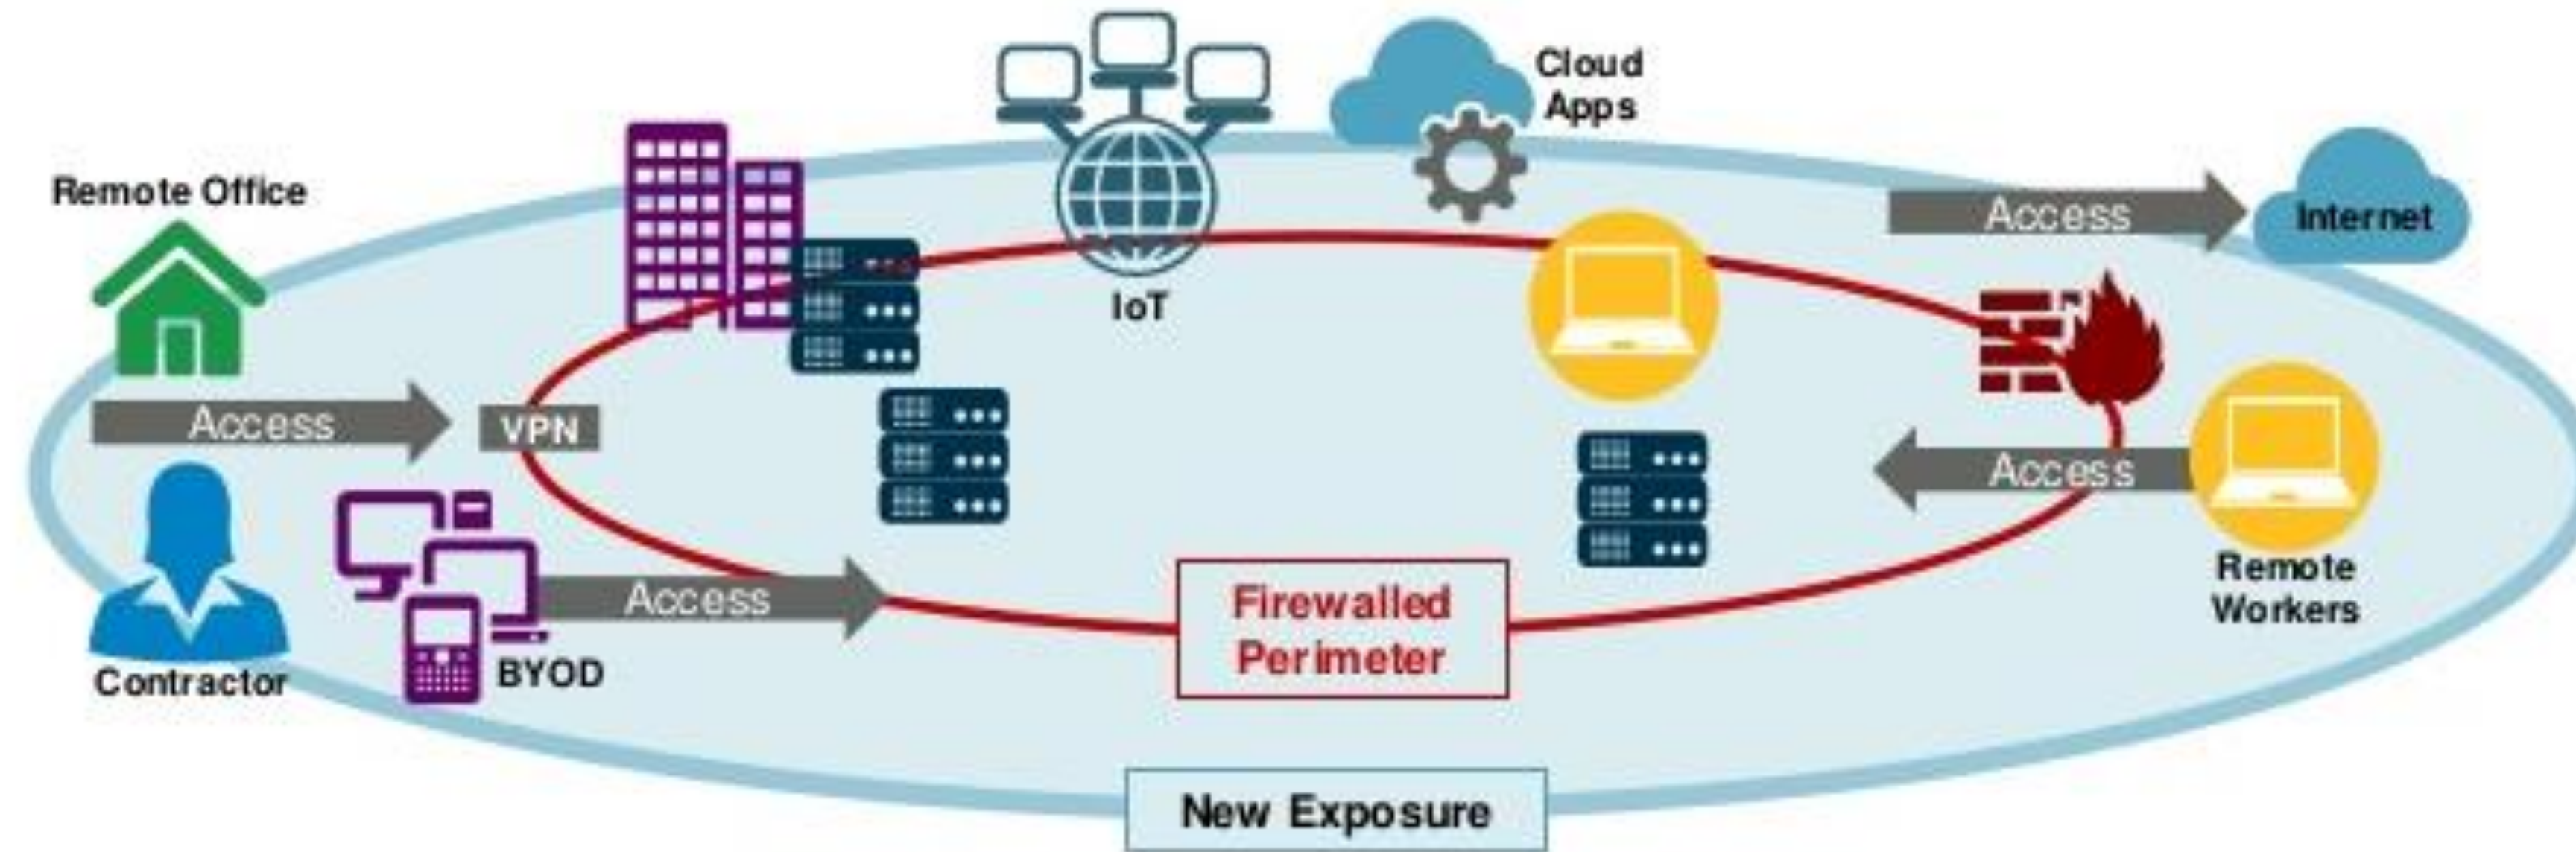

**Our
Missions**

Our Values and Commitments

Risk and Threats Landscape Today

- Buffer overflow attacks
- BYOD/ Contractor or Guest Device/Rogue Device (eg AP or Router)
- Endpoint device non-compliant to security policy
- Off-line infections
- Physical Theft
- Weak Privileged User Control
- Weak Data Protection eg sensitive data not masked nor encrypted
- Data Leakage
- Poor Network Access Control
- Lateral Movement
- Poor or no control of mobile device management
- Data theft -System Administrator or DBA
- Weak Audit
- Weak User Right management
- Unauthorized Database Access
- Failing Compliance Requirements
- Database protocol vulnerabilities
- Worms/Trojans/Viruses/Rootkit/ Botnets infection
- DDOS attacks, Brute Force, SYN flood
- Evasive Malware, Blended Threats, Zero Day attacks
- Buffer Overflow attacks, drive-by download, malware via HTTP, FTP etc
- Weak security policy control (eg Firewall – complex rules and misconfiguration)
- Fluxing ; Command & Control
- Cross-Site-Scripting
- Privilege abuse
- Directory Traversal
- Remote file Inclusion
- SQL Injection
- APT, Targeted attacks
- SPAM, Spear Phishing and P2P Threats

Threat Protection against multiple vectors

SECURECARE & SERVICES

Secure Source offers **4 packages** under SecureCare Maintenance Services that enable the customers the flexibility to select the plan that meets their needs.

Professional services can be customized to customer's requirement.

	SecureCare Standard		SecureCare Premium	
	<i>SecureCare 8 x 5 x NBD</i>	<i>SecureCare 8 x 5 x 4hr response</i>	<i>SecureCare 24 x 7 x NBD</i>	<i>SecureCare 24 x 7 x 4hr response</i>
Response Time (Email, Phone and Remote Assist Support)	NBD	4 Hours	NBD	4 Hours
	From (9 am to 6 pm, Monday to Friday)		24 Hours	
Advanced Hardware Replacement	NBD	Same Day	NBD	Same Day
Onsite Preventive Maintenance	Optional		Optional	

SECURECARE **BENEFITS**

Dedicated, committed and experience security engineers, to provide responsive support and technical assistance for our solution offering

01

Advanced Hardware Replacement

- Trained specialists verify the source of your network problems by telephone.
- When hardware return is necessary, Secure Source ships a replacement unit to arrive at your site within the committed time frame.

02

Technical Telephone Support

- Qualified technical support engineers help you resolve an unlimited number of incidents quickly and efficiently.

03

Software/Firmware Upgrades

- Secure Source shall advise customer when new firmware is available and will assist to provide upgrades when necessary.

Carbon Black.

IMPERVA®

SECURE SOURCE TRAINING

Product based training (inclusive hands-on lab experience)
can be arranged and conducted to partner and customers:

- Product System Administration Training
- Product Certification Training

CERTIFICATE OF COMPLETION

proofpoint.

Proofpoint Enterprise Protection/Privacy Accredited Engineer

Hillstone Certified Security Associate

IMPERVA

Imperva Database Security Specialist

ForeScout

ForeScout Certified Administrator

CERTIFIED ALGOSEC Security User
AlgoSec Firewall Analyzer Technical Training

- } Demonstrating a LogRhythm Solution Course
- } Scoping & Architecting a LogRhythm Solution
- } LogRhythm Network Monitor Certified Professional v7.1

Silver Peak Technical Sales Professional (STSP) }
– SDWAN Certification Training }

Silver Peak SDWAN eXpert Certification }
