

AlgoSec FireFlow

Intelligent Workflow for Network Security

AlgoSec FireFlow is an intelligent workflow solution that automates the security policy change lifecycle. FireFlow easily supports existing business processes and integrates with enterprise change management systems such as BMC Remedy and HP Service Center

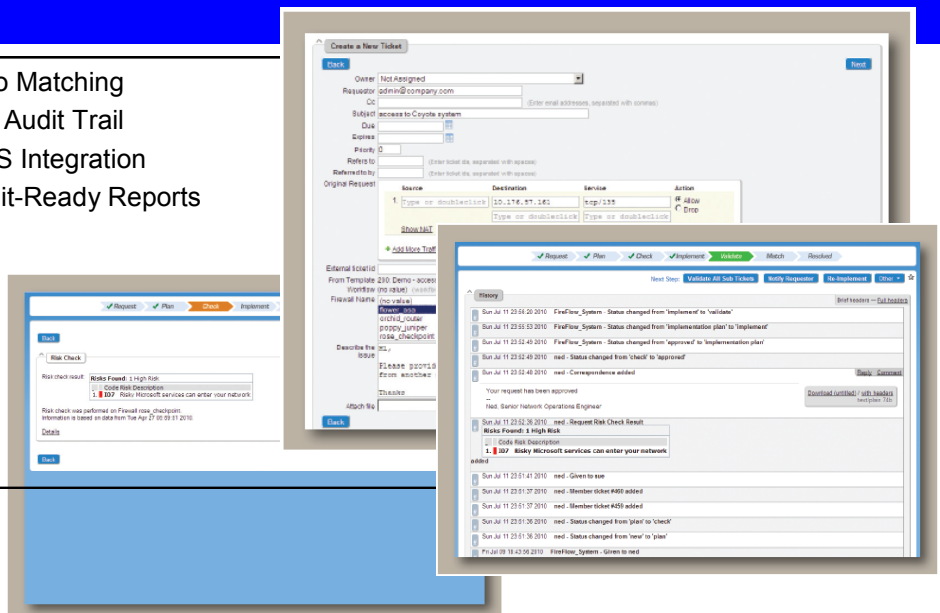

FireFlow automates the change lifecycle from submission to audit. It manages changes in multi-vendor, multi-device environments to ensure that security policy changes are approved, necessary and implemented as intended

-  **ELIMINATE RISKS**
