

# AlgoSec Firewall Analyzer

## The Smartest Way To Manage Your Firewall Policy

The AlgoSec Firewall Analyzer (AFA) is a firewall operations and security risk management solution that provides automated, non-intrusive firewall, router and VPN audit and analysis. It helps you automate the process of assessing your security policy, auditing compliance, tracking changes and ensuring your security devices are configured properly.

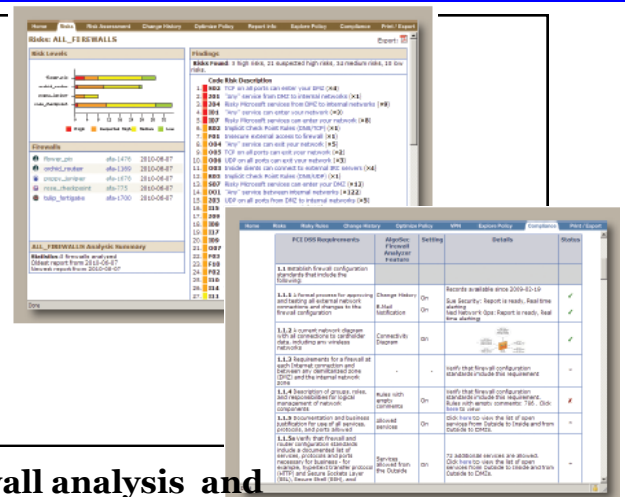

The AlgoSec Firewall Analyzer helps you proactively manage your firewall policy, providing visibility into changes and risks, recommending policy optimizations and automating compliance audits
