

BT Diamond IP Partner Launch

BT Diamond IP delivers powerful, comprehensive IP Address Management (IPAM) solutions encompassing: IP Block and Subnet Management, DHCP Management and DNS Management including DNSSEC Management. BT Diamond IP IPAM solutions enable enterprises and service providers to dramatically improve their overall IT operational efficiencies and service levels by automating IPv4 and IPv6 address management with DHCP and DNS server configurations.

BT Diamond IP Benefits

- Exceptional return on investment over spreadsheets or point solutions - 150% or more is common
- Automation improves operational efficiencies and reduces configuration errors, reducing downtime of critical DHCP and DNS services
- Deploy BT Diamond IP products at your pace with multi-vendor DHCP/DNS support and managed services
- Integrated IPAM "network management" functions provide lower cost of ownership over competitive products
- Disciplined IPAM solidifies the core DHCP/DNS/IPAM (DDI) infrastructure, enabling organizations to confidently deploy multimedia IP services
