5 Reasons Why the Cloud Should Be More Secure Than Your Data Center

Andres Kohn, vice president of technology at Proofpoint, comments on five reasons why data hosted in the public cloud is more secure than managing it in-house: Greater economies of scale, more secure development cycles, continuous auditing, higher levels of automation and repeatability, and stricter access controls. [Read More](#)

Mobility, Disaster Recovery Secondary Benefits of Cloud Computing, SaaS

For companies of all sizes, the most frequent motivations for moving to the cloud are reduced costs and instant scalability. [Read More](#)
