

SCADA [in] Security

WHY YOU CANNOT MISS THIS EVENT?

Critical infrastructures have long relied on SCADA. SCADA has long relied on its obscurity to deter attackers. Come the 2nd decade in the 21st century, both critical infrastructures and SCADA are slowly but surely coming into the crosshairs of malicious attackers. Over the past few months, SCADA systems have become infamous. Stuxnet, Night Dragon, has the floodgate opened?

This conference brings together SCADA proponents from both sides of the SCADA security debates: Operators vs information security experts, to develop and improve the current state of SCADA security or risk the network collapsing without even realizing what hit you.

Imperva is the one of the partners that will be showcasing its latest products and solutions this year in SCADA [in] Security. Come and visit us from **13th July to 14th July 2011** at **Crowne Plaza Kuala Lumpur** to know more. Lots of fun-filled games & gifts awaits you too.

Come and visit us at

Date: 13th July 2011 to 14th July 2011
Time: 9:00 am to 5:00 pm
Venue: Crowne Plaza Kuala Lumpur
